

CUT OFF WHEEL 107*1.0*16MM DELKUT SUPER

The **DEL KUT Super 107 x 1.0 x 16 mm Cut-Off Wheel** is a high-performance abrasive cutting disc engineered specifically for rapid, clean, and precise cutting of **metals, iron, pipes, and stainless steel (Inox)**. [\[1, 2, 3, 4, 5\]](#)

Technical Specifications

- **Diameter:** 107 mm (standard 4-inch angle grinder profile)
- **Thickness:** 1.0 mm (ultra-thin profile for burr-free cuts and minimum material loss)
- **Bore / Hole Size:** 16 mm
- **Maximum Speed:** Up to **15,200 RPM**
- **Material & Structure:** Premium Aluminum Oxide abrasive compound reinforced with a durable **double fiberglass mesh** for enhanced workplace safety. [\[1, 2, 3, 4, 5\]](#)

Key Performance Benefits

- **Clean Edges:** The ultra-thin 1 mm body dramatically lowers friction, ensuring clean cuts without burrs or extreme heat discoloration.
- **Material Efficiency:** Minimizes kerf loss, ensuring you do not waste raw metal or structural material during the cut.
- **Safety & Resilience:** The dual-layer fiber net construction reinforces structural stability, reducing the risk of shattering at high operational velocities. [\[1, 2, 3, 4, 5\]](#)
