

You said: sds 12\*35

The search term "sds 12\*35" primarily refers to a **No. 12 gauge (5.5 mm nominal diameter), 35 mm long Self-Drilling Screw (SDS)**. Alternatively, in power tools, it can indicate a **12 mm diameter by 350 mm length SDS-Plus hammer drill bit** where the zero was dropped. [[1](#), [2](#), [3](#), [4](#)]

### **Option 1: SDS Self-Drilling Screws (12 × 35 mm) [[1](#), [2](#), [3](#)]**

These are heavy-duty, self-tapping fasteners primarily used for roofing, cladding, and metal-to-metal applications. They feature a built-in drill point tip that eliminates the need for pre-drilling pilot holes. [[1](#), [2](#), [3](#), [4](#)]

- **Hex Stainless Steel SDS Screw (Pack of 100)**: Available on . It features corrosion-resistant zinc plating and a hexagonal truss head for high torque transfer. [[1](#), [2](#)]
- **[Tata Agrico Aluminium SDS Screw \(Pack of 500\)](#)**: Available on . It is designed with a full-thread body for industrial profile sheet installations. [[1](#)]
- **Corroshield SDS-XYLAN Roofing Screw (Pack of 1800)**: Available on [Moglix](#) for. It offers anti-corrosion Xylan coating specifically optimized for long-term outdoor weathering
